

# PRESENTATION

ТОО Versus Group (Версус Групп)

Turnkey project solutions

Solution partner of leading manufacturers

Projects starting from the design phase

Preparation and independent examination of design

Documentation

# PRESENTATION

TOO Versus Construction (Версус Констракцын)

Construction and installation company

Electrical work

Low-current system

## **ABOUT US**

### **Who are we?**

The Versus Group company was founded in 2018 and offers highly qualified technical specialists with extensive international experience in the territory of the Republic of Kazakhstan and the Russian Federation for scientific and technical support and implementation of technically complex projects in the field of construction

### **Our mission**

The specialists of our company perform work of any complexity, using modern technologies and materials from leading manufacturers. We have an individual approach to working with each of our clients, which allows us to take into account all the existing wishes of our customers.

### **Our vision**

To be the preferred company with engineering solutions that meet the needs and expectations of our clients.

**TOO Versus Group ( Вепсус Групп )**

## OUR SERVICES

### ELECTRICAL WORKS

Power Distribution Systems

Backup Power Systems

Lighting Systems

Reactive Power Compensation Systems

Protection Systems

Automation Monitoring Systems

HVAC Mechanical Automation Systems

## WEAK -CURRENT SYSTEM

Structured cabling system  
Communication and data transmission system  
Fire detection and alarm system  
Public address and voice alarm system  
Access control system  
Video surveillance system  
Fire extinguishing systems  
Gas and powder fire extinguishing systems  
Satellite television system  
Central clock system  
Medical personnel calling system  
Professional audio and visual systems  
Congress and Simultaneously Interpreter System  
Outdoor LED screen system  
Digital information system  
TV Broadcasting Systems and Studio System  
IP and SMATV system  
Parking Management and Billing systems

## DESIGN PERSPECTIVE

Projects starting from the design phase

Project management

Collection of raw data

Concept development and technical assignment

Preparation and independent examination of design estimates

Documentation
